

LegalShield Associate Monthly Fee is \$60

Congratulations on joining the Diamond Virtual Care!

As a new Diamond Virtual Care member, you now have a personal physician at your fingertips. Diamond Virtual Care is the next generation of telemedicine. We have eliminated the online queue and elevated the patient physician relationship. No need to explain your entire medical history, summarize your medications, and recap your allergies every time you chat with the doctor. You will be assigned one Diamond Virtual Care provider that follows you throughout your membership to learn your story, hear your concerns, and respond to your specific healthcare needs in a timely fashion.

See your healthcare provider WHEN needed - we are available to you 24 hours a day, 7 days a week. Diamond Virtual Care eliminates the need for late-night urgent care visits, sitting in cramped waiting rooms, or using paid time off for a simple prescription refill.

See your healthcare provider HOW you want to - phone call, text, and video conferences are all available to you. Our HIPAA-compliant platform ensures that your personal medical data remains safe regardless of your method of communication.

See your healthcare provider AS OFTEN as needed - your monthly membership fee covers unlimited virtual consultations and grants you access to our cash-pay network for health needs that we cannot handle virtually – via phone call, text, and video conferences.

We welcome you again to the Diamond Virtual Care family, and we look forward to helping you optimize your health!
